DATABASE OF GRADUATES AND STUDENTS WITH QUALIFICATIONS IN THE BUILT ENVIRONMENT

The KwaZulu-Natal Department of Public Works hereby invites unemployed graduates/students to respond to the call for them to be uploaded on the database of students with qualifications in the built environment. The purpose of the database is to draw on it when opportunities arise for graduates/students to obtain valuable work experience, under the supervision of a mentor. Kindly note that the Department will only make contact with graduates/students as and when mentorship opportunities arise, and that by submitting the information it does not mean that a vacancy exists.

Consideration will be made to graduates/students who are unemployed, and have not previously benefited from an internship or In-Service training programme. Kindly provide an affidavit in this respect signed by a Commissioner of Oaths stating that you have not benefited from any programme mentioned above. Graduates/students should be between 18 to 35 years of age, and must be South African citizens residing in KwaZulu-Natal. The forms must be submitted with a reference number indicated in the reference column. The form is also available from the website <u>www.kznworks.gov.za</u>. A separate form must be provided for each reference number. Please submit your CV, tertiary qualification, senior certificate, statement of results, and identity document. Please note that copies **do not** need to be certified.
